

# IT ADVISORY SERVICES

**Nexia BT is:**

- a top mid-tier firm in Malta offering corporate and private client advisory, audit, accounting and tax services
- a member of Nexia International

# Driving business excellence through information technology

Information Technology (IT) is a challenging field which, if managed well, can be a valuable asset to any company. On the other hand, making an uninformed decision in an IT strategy can lead to lost revenues and operational inefficiencies.

Organisations which recognise and understand the importance of leveraging IT have the potential of achieving significant growth and competitive advantage.

---

*Choosing a trustworthy IT advisor is crucial in determining that your decisions are based on the relevant information*

---

## Our services

We aim to assist you and your organisation in developing a clear IT strategy that is fully aligned with your business needs. Working together enables us to assist you in identifying the most cost-effective IT strategy and implementing it to help you achieve your goals.

Do you have the appropriate number of IT staff with the right skill sets?

Are your systems secure?

IT advisory services

Are you leveraging systems for achieving a competitive advantage?

Are your systems appropriate for your business needs?

## **Our IT advisory services**

### **IT sourcing**

Identifying the optimal systems for the smooth running of your business can be an overwhelming and time-consuming task. Combining your knowledge of the industry in which you operate, and our technical and business expertise in the selection and implementation of technology, will lead us to identify the system that best addresses your needs. Together, we will also identify key decision making information that you will need to access from your systems.

### **IT project management**

IT investments require meticulous planning to deliver the project or service on time and within budget. After identifying the system, we will employ specialised business and technical experience to support the implementation of projects for beneficial change that will add value to your organisation. We have extensive experience in implementing systems such as Enterprise Resource Planning (ERP); Customer Relationship Management (CRM); Sales Force Automation (SFA); and Business Intelligence (BI).

### **IT audit services**

IT is at the core of the modern organisation's business model, often driving mission critical systems which necessitate monitoring and control to prevent information leaks and vulnerabilities. In a more complex and highly regulated business environment, organisations are required to adhere and comply with directives and regulations that are issued from time to time.

We offer IT system and compliance reviews covering areas such as: business continuity and disaster recovery; information security policies; service agreements and network infrastructure; as well as advisory services to assist you in leveraging the full potential of your company's IT infrastructure.

### **Related services**

- Business Process Transformations (BPT) through which we analyse the way a company operates for the purpose of implementing the necessary changes to better manage financial, human and physical resources. Our role is to align processes in line with the new systems with a view of increasing effectiveness and efficiency, improve quality and reduce costs.

# Why choose Nexia BT?

As a reputable organisation with 25 years of experience, led by results-driven partners, we have the credentials and expertise to make it happen. We at Nexia BT, have grown a team of experts who advise organisations on ways to manage the risks emanating from their exposure to constant changes occurring in their operational landscape. Our portfolio of clients operates across a variety of industry sectors. In order for organisations to clearly choose the way to business success, we team up with these organisations to provide them with internal audit services, risk assessments, risk management, IT audits, operational reviews and first level control services.

Nexia BT's strength lies in the technically competent staff having hands on experience across a varied range of industry sectors.
